

Organic Farm

Organic Vegetable basket, to your doorstep

In the heart of the Emek Hefer, in Hama'apil kibbutz, grows an impressively beautiful organic garden.

In our organic farm dozens of vegetables and greens, all pesticide-free, are cultivated with love and care.

The farm works on the CSA "Community Supported Agriculture" model, and sells its produce to regular members. Once a week group members receive a delivery of rich organic vegetable basket to their doorstep, picked on the same day. All the vegetables in the basket are fresh, healthy, 100% organic, highly nutritious and... very tasty!

Cost of the vegetable basket for group members is a fixed, attractive, and fair price.

▫ The cost of delivery depends on the area.

You can join, visit and/or tour the farm by calling:
